1.4 The Game Screen

After you have clicked on the level the game will start. You will be presented with the equipment room screen where you have to choose the correct equipment for the job. You have to click on the icon that you think is correct.

Depending on your choice you will be given either a positive or negative score. After you have chosen all the equipment you will see the main game screen:

- You can go back to the main menu by clicking on the “back arrow” icon.
- The Score indicator will keep track of your score depending on the actions you take.
- Fire Waypoint will provide you with the general direction of the fire, as well as how far away from you it is.
- The Character Movement Joystick can be used to move around the game in all four directions: forwards, backwards, left and right.
- The Character Camera Joystick is used to look either to the left or the right.

To use the joysticks you have to press and hold the white circle and move your finger in the direction that you want to move in while pressing the circle.

1.5 Put out Fire

When you get acquainted with the controls it is time to put out the forest fire. You have to find the fire in the big forest. If you get lost you can follow the Fire Waypoint which will always show the general direction of the fire.

When you find the fire and approach it in some radius, different buttons will pop up on the screen which you can click to try to put out the fire.

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Only the correct option can put out the fire. Incorrect options will give you a negative score. A correct option will both put out the fire and give you a positive score.

When you put out all the fires in the level, the game will end and take you to the main menu screen.
